

Carmunnock Heritage Society Membership Report April 2026

Carmunnock Heritage Society now has a membership of 207 individuals - 144 households. We are really pleased at the increase in new members over the last year.

Last year at the AGM it was decided to ask the committee to make a decision on future membership fees. Having looked carefully at the options, the committee recommends to the AGM that the annual membership fee for current members be abolished. However we would still welcome support from anyone who would like to make an annual voluntary donation to the Heritage Society funds.

Those who have been members from the beginning, when the Society was called the Preservation Society, right up to the present, including those who joined most recently, will now be designated as lifetime members.

We suggest that any person who wants to join Carmunnock Heritage Society in the future should be charged £20 per person for a lifetime membership. Membership will include being on our mailing list, and also provide access to the members section of our new website which will enable members to keep up to date with events and our work throughout the year.

In order to raise funds for our work from now on, there will be a small charge for events/talks but we are hoping to run at least one free event for members per year.

In the Springtime we are planning a leaflet drop to encourage more people to become lifetime members.

We would like to thank you all for supporting us over this last year, coming along to talks, buying raffle tickets and giving kind donations. We look forward to meeting many more of you at the upcoming talks planned for the rest of this year.

Rosemary Morgan
